## Warranties

- 10 Year Carpet Wear Warranty
- Lifetime Anti-shock Carpet Warranty

Ideal for Medium Contract Use.

The subfloor should be dry, smooth, flat, dust-free and resistant to compression and load-bearing. Where seaming is necessary, a seam sealant must be used for all such installations. Due to dye lot variations, actual color may vary slightly from the samples. Chair pads are recommended to prevent premature wear of carpet.

## Environment

The design and production of Mystic 4 Tile conforms to the ISO 14001:2004 Environmental Management System and complies with environmental regulations.

As a responsible manufacturer and to minimize our carbon footprint, a majority of our excess production materials are recycled in-house resulting in a minimum of 10% recycled content in our tile backing. Mystic 4 Tile does not contain any PVC in its manufactured materials and packaging.

Mystic 4 Tile is an environmentally friendly "green" carpet.

## Suitable

Mystic 4 is an extremely affordable yet strong and durable carpet tile that fully meets the needs of today's competitive office environment.

Due to the solid colourations of Mystic 4, the edge lines may be visible if planks of the same colour are joined next to each other. The visible edge lines are an inherent characteristic of the plank and not a defect, just as one can also see the edge lines when joining wood planks or PVC planks.

If the visual effect of the edge lines is required to be minimised, we recommend installing planks of different and contrasting colours next to each other, as can be seen in our illustrations.
