# EN VOGUE

*Click Vinyl Planks*

## PRODUCT FEATURES

Flexibility of design options – EN VOGUE is available in a large variety colors and styles.

Resilience – reduces noise and provides underfoot comfort.

Durability – EN VOGUE is very durable and maintains its characteristics under heavy foot traffic and use. It is moisture and stain resistant, so spills can be easily removed.

Water resistant – a good choice for kitchen, bathrooms, laundry and patios.

Bio-based plasticizer is made from 100% organic raw materials.

Product is 100% recyclable at the end of its lifecycle.

Floating installation system, very easy for DIY.

High life expectancy – lasts for decades with minimal maintenance.

Naturally anti-microbial – good for hospitals, schools as well as kids' nursery rooms.

Cost effective – EN VOGUE is comparatively less expensive than most other floors. It is much easier to afford than flooring options with similar attributes.

Environmentally friendly – we use one of the best plasticizer DOTP. We have passed certification of Floorscore and DIBt. Creates no toxin.

Locking system – with 10 years of experience in profiling, we have the easiest locking system to ensure the strongest pulling strength.

# VINYL LOCKING

EN VOGUE series combines beautiful and realistic wood patterns with an easy locking system. Durable and water-resistant, it is a high end resilient flooring. We provide a vast array of options of colors for your choices. It's suitable to be used in kitchens and bathrooms.

Get the natural look and feel of wood – minus the maintenance – with EN VOGUE FLOORING.

# NEGATIVE ION FLOORING

Negative Ions can be very good to people's health, but these ions are generated by processes such as sunlight, lightning and waterfalls. So the air in the countryside contains more negative ions than the city.

But what can we do if we live in the city?

Our new generation flooring can release extra negative ions, bringing the countryside air to your room.
